ORCAN PNEUMATIC BENCH VICE

ADD EFFICIENCY TO YOUR OPERATIONS

Do you have a need for a vice that is durable, efficient, and reliable?

The Orcan Pneumatic Bench Vice is the perfect choice. This bench vice offers a sturdy and reliable pneumatic clamping solution that is designed to increase your shopfloor efficiency.

you can trust that the vice is built with high quality components for maximum durability.

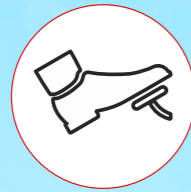

So if you're looking for a vice that will perform with precision and ease, then you'll want to check out the Orcan Pneumatic Bench Vice. ROI When it comes to investing in manufacturing equipment, any business owner must consider the return on investment (ROI).

This vice is designed to provide an efficient and cost-effective solution for a wide range of industrial applications like filling, assembly, pressing etc.

Operational Limits

- The distance between the jobs must be adjusted to 4mm plus the clamping dimension of the job. Pneumatic actuation is max 7mm
- The operating clamping force varies as per the pressure of the compressed air, however highest clamping force of 1000kg can be obtained when supplying compressed air at 7.5 Bar.

Orcan pneumatic bench vice when ordered with the pneumatic panel comes with the top quality pneumatic control and switching components housed in a Top quality compact powder coated panel, however clean and dry air as per the compressed air quality grade based on ISO8573-1 or minimum maintain good air filtration of 5microns at 3deg pdp.
